

Hi!

Never buy Windex, glass plus, or paper towels again.
(Motioning to people passing by with the cloth)

This is the same one that you see on TV. , streak free micro - fiber. (Let them hold the cloth at this time.)

Wet it wring it, and wipes any surface. Streakfree, spot free, lint free. Absolutely, positively, never streaks -glass, mirrors, windows, Plexiglas, even lexam. It is a professional wiping cloth.

It takes 3300 pounds of pressure to rip or tear the cloth.

Watch this ...(Take a crayon and mark the glass) this is a crayon, don't be confused .I know that you are not going to draw on your windows or mirrors. But crayon is wax and oil based. If you did this at home or at your business, you would streak or haze your glass. (Rubbing your finger back and forth on the window, smearing the crayon)

Watch how easily the Streak Free cloth cuts, grease, grime, oil, bugs, nicotine haze, dust, and dirt. Quicker and faster than any cleaner on the market.

Watch how the glass dries spot free, lint free, and streak free.
(Waving your hand over the recently cleaned window)

When the cloth is dirty just simply wash it.

On TV, You get 3 for 29.95 here at the market you get one for 6 dollars, two for 10 dollars, and five for 20.
